Eurostar

Thalys

Frecciarossa

European Trains are one of the most convenient, hassle free, quickest and affordable ways to travel between countries and cities in Europe. Not only you get from your origin to destination but also arrive in comfort and see the picturesque countryside and at times have a close look at the cities as well, when you travel through them.

- Passes are the ideal choice to explore Europe at one's own pace. Simple and flexible, passes offer unlimited travel in the countries covered, in total freedom. Rail Europe pass offerings range from the famous
- Eurail Global Pass that enables travellers to discover up to 24 different countries, to a large variety of National and Regional Passes for travellers wishing to concentrate on more specific countries.
- For travellers with more specific travel needs, travelling between several European cities, point to point tickets are ideal and a great value for money.
- Best prices: thanks to its unique distribution system, Rail Europe offers real time availability and the best possible price, exactly like in Europe. Cheap/affordable fares are available on all trains, even on the most famous high speed trains such as Eurostar (the Channel Tunnel train), TGV (in France), ICE (in Germany), Lyria (between France and Switzerland), Thalys (between Paris, Brussels, Amsterdam and Cologne).
